

## Need your medical ID card quick? Print a temporary one

Haven't received your member medical ID card yet? Or do you need to go to a doctor's appointment before you get it? There's no need to worry — you can always print a temporary ID card. It'll work just as well as the real thing.

Printing your temporary ID card is easy and takes only a few minutes. You can print a temporary ID card online through our website, [bcbsga.com](http://bcbsga.com), by following these steps:

- Go to [bcbsga.com](http://bcbsga.com).
- Click on the **Customer Care** link in the top right hand corner of your screen.
- Click on the **Print Temporary ID card** link.
- Log in using your member username and password or register if you do not have an account (call Member Services at 855-397-9267 and request your health care ID number to register).
- The member selects a member name from the drop down box and system displays the Temp ID Card for the selected member as a PDF embedded in the page.
- Click the print icon in the upper left hand corner of the PDF to print.

Print the ID card using your own printer and then use it at your next doctor's appointment.

It's important to remember that your temporary ID card expires after 30 days. The temporary ID card is not meant to replace your permanent ID card, which you will still get, and it may not include all of your benefit information.

If you have any questions, a Customer Service number is on the temporary ID card.

So, if you need an ID card quick, go online and print a temporary one as a backup!

A temporary ID card is also a great option if you ever misplace or lose your regular one!
